# Huyanh Hoang

## Education

**2013–Fall 2017**  **Bachelor of Science, Informatics**, *University of California, Irvine*, Cumulative GPA: 3.4.
Emphasis in Software Development and User Experience Design
Coursework: Databases, Data Structures and Algorithms, User Interaction Software, Information Visualization

## Experience

**January 2016–Present**  **Cofounder**, *Rohm*, Irvine.
○ Transform prototypes for an iOS platform dealing with event coordination and event discovery to Swift code with Firebase and Cocoa
○ Plan and coordinate the Agile process by prioritizing the features needed in each sprint based on user data
○ Implement lean startup techniques to discover user problems and create solutions

**July 2016–Present**  **Independent Developer**, *CalorieUI*, Irvine.
○ Developing a fitness utility iOS application that tracks calories and automatically counts the workout set repetitions
○ Planning problems, solutions, customer segments, acquisition channels, and actionable metrics

## Software Projects

**March 2016–June 2016**  **iXercise**, *UCI*, Irvine.
○ Conducted interviews and extracted requirements with doctors to build a web administration system for an exergame that supports the rehabilitation of recovering leukemia patients
○ Tested prototype designs with medical staff, performed modifications, and retested those modifications
○ Learned to create a secure, user-centered application using Node.js, MongoDB, and D3

**April 2016**  **paso**, *LAHacks*, Los Angeles.
○ Collaborated with non iOS developers to extract requirements to develop a fitness iOS application that donates a set amount of money to charity once the user walks 10,000 steps
○ Adapted OAuth2 libraries to connect the backend FitBit API to the frontend logic
○ Guided team members on UIKit, Swift, and UX design to make the application more user-centric

## Leadership and Community

**June 2013**  **Eagle Scout Project**, *Boy Scouts of America*, Westminster.
○ Developed and led a project involving the creation of wooden storage shelves for children at a local elementary school
○ Managed a group of 15 people and assigned them different tasks such as painting and nailing

## Skills

○ Proficiency in implementation skills and algorithms with C++, Java, Python, and Swift
○ Proficiency in creating user personas, conducting user interviews, prototyping, and implementing lean startup practices
○ Familiar with Cocoa API, Unified Modeling Language, HTML5/CSS3, Sketch, D3, MongoDB, Node.js, JavaScript, SQL
